About This Content

Attention all Seaside Valley bus drivers! Do you want to upgrade your fleet – preferably with brand-new buses? Have you been eagerly anticipating new MAN models? Then this is the perfect expansion pack for you!

This Bus Simulator 18 DLC includes three new buses licensed from MAN!
The 39-foot **MAN Lion's City A21** awaits with two doors.

The **MAN Lion's City A47** is 34 feet long and is one of the shortest of the Lion's City series buses.

Plus, you can look forward to the articulated **MAN Lion's City A23**. This modern, 59-foot, three-axle bus holds around 140 passengers, who can board and alight it quickly and easily through one of four doors. This results in efficient and fast entry and exit. It also ensures that, even during peak times, most passengers will find a seat on your comfortable bus, while it transports them to their destination on time.

The Bus Simulator 18 expansion pack requires the main game.

Features:

- Three faithfully reproduced, officially licensed MAN City bus models
- MAN Lion's City A21: rigid, 39 feet, 2 axles, 2 doors
- MAN Lion's City A23: articulated, 59 feet, 3 axles, 4 doors

-
- MAN Lion's City A47: rigid, 34 feet, 2 axles, 2 doors

Title: Bus Simulator 18 - MAN Bus Pack 1

Genre: Simulation

Developer:

stillalive studios

Publisher:

astragon Entertainment

Release Date: 18 Dec, 2018

a09c17d780

Minimum:

OS: Requires a 64-bit processor and operating system / Windows 7/8/10 64-Bit

Processor: Intel Core i3 with 3.3 GHz or AMD Phenom II X4 with 3.2 GHz

Honestly, this game is not bad yet 5.99 is not the right price for it. The game can't keep my attention for long and is kind of boring. It doesn't have much to offer, and it was just an impulse buy. I could not play this game for extended amounts of time, the game could use some music and looks like a 1 dollar mobile game.. They updated the game to a non working one.. I feel that the main riff to this song is essential for any heavy metal guitar player and Rocksmith did a wonderful job of transcribing this song! Though it's not as tough as some other songs, namely "Bat Country," it still provides a fun, interesting, and fast paced experience. If you only get one song from the Lamb of God song pack, I recommend it be this one.. Totally awesome game! I got it as part of a group of random Steam codes and I got this little gem!. Poorly explained that's why I can't recommend this. It has potential but some of the key elements are not explained. I don't mind learning on my own but you can't learn something that the developers had in their head.

AQW in 3D form, but the map is huge, bland and so empty, you have stamina to enter a dungeon where the enemy drop items that you need to craft armor and weapon, while you need a lot of these items, the enemy only spawn once until you quit the dungeon and restart it, and crafting actually take times like hours so you can't immediately equip it like in AQW. Oh, there's also a few more, like most the armor and weapon is either a recolor of the others or completely new design, where most of the time you need real money to get it. Did i also mention with that huge map you can't run? But don't worry, you can transform to random animals that makes you move faster and looks cool! But for a price of course!

I can't feel the passion of the developers at making this game. Its like they made this game for money only. AQW is definitely better, maybe you should try that one instead.. This game will always have a special place in my heart <3

(It's dead by the way). Raid mode pay for extreme early advantage. This a predatory concept to make players pay for something that is already in the game lol. At least it's not exclusive content. Might as well offer a max level characer microtransaction for \$60 like WoW.

So I want the Infernal campaign mode achievement. How much does that cost?

I only have this because it was included in the less than \$10 Steam winter sale complete version of this game.

I actually wish I did not have this when first starting raid mode. It took out some of the challenge. I could have just got a modV/save game editor and cheated that way.. Solid product, and great deal at today's prices. Plenty of detail and character, if lacking in traffic in QD (but to be expected at this age). Recommendend wholeheartedly.. Ame no Marginal is a good game. It\u2019s a solid experience with an interesting story, moving you in a way that only a stage-mana story can with it\u2019s somber yet calm atmosphere, but it\u2019s a bit too short and underdeveloped to call it amazing. I had a great time with this and would recommend it to everyone, but you should keep in mind that it\u2019s not omgamazingness that Narcissu was.

Pros

- +Solid Story
- +Amazing Experience
- +Narcissu Included

Cons

- Lack Of Depth
- Too Short For The Price
- . It works under Win 10 with regular updates. (12.25.2017.)

There were problems with recent versions of Win, but now it works fine.. The walking howitzer too op for me. After reading reviews, I thought it would be a good time to purchase and give this version a shot. This is a great game, but no care was put into this port. Game started crashing after 7 hours of gameplay and since crashes constantly. This is really sloppy work for such a longstanding great game. Definitely pass even if on sale.. For whatever I am unable to even start the game, get an Unreal Engine error. Devs completely ignore my several requests for help and unfortunately for me I didn't get to try it until after the refund date.

Can't comment on the actual game, but don't support a dev who won't back their own product
