for free ExpressVPN, we suggest creating a new Connection and choosing ExpressVPN as the connection type, to avoid having to change the preferences. ExpressVPN's help center also provides a good primer on VPNs in general, and some of the different categories of VPN protocols. The ExpressVPN setup process is pretty straightforward. You'll be asked to choose a VPN server location, along with your chosen server's IP address and port. A standard subscription plan that comes with basic and unlimited plans is going to start at around, and you can save around by signing up for a 6 month deal. ExpressVPN plan, which we recommend. You can now see the information available for ExpressVPN's ExpressVPN plan, which you can switch between (free plan) or select the free plan by default (recommended). You can see the monthly cost of the ExpressVPN plan in the table below. If you can't see the plan's details, click on the blue link to the left of the plan name. ExpressVPN also offers six-month, 12-month, and annual subscription plans. This really is an ExpressVPN plan, because you can try the service before signing up for the full plan. You can choose to pay monthly, pay annually or pay via an automatic payment method. Choose a subscription option. You can use the ExpressVPN app on Android and iOS, which is what we used in this article, but you can also use the website as well. Connect to a server The ExpressVPN free plan lets you use their website, which is a straightforward process. It's just like any other website, and you will have to select a server. You can choose from more than server locations as shown in the image above. ExpressVPN isn't a speed demon, but it does an adequate job. Let's run a speed test using both Firefox and Chrome. The ExpressVPN free plan uses the OpenVPN protocol, which is a slower protocol than L2TP. You can try out ExpressVPN's service for free by following this link. VPN Connection ExpressVPN's app is quite simple to use. You can connect to ExpressVPN through your browser or from any device, such as your Android or iOS phone, tablet, desktop or laptop. Since it's a free VPN, there's no need to sign up before using the service. All you have to do is connect to ExpressVPN's server.

Click on the Connect button at the bottom of the screen 82157476af
